PREPARATIONS FOR THE SOCIAL REVOLUTION SO BRAVELY ON UNDER THE GUIDANCE

OF AN INVISIBLE COMMITTEE-BEHIND THE MASK OF LABOR. IST TELEGRAPH TO THE TRIBUNE.

Chicago, Dec. 1.—The published revelations that have been made during the past ten days concerning the doings of the Anarchists here are apt to be re-ceived with incredulity by a majority of the people of the country, but from a careful investigation and from conversation with the heads of the Police Department, and from what is said by the Anarchists themselves. Between City Hall or Bridge Entrance and Chatham Square it may be stated that the situation is quite as serious as it was before the Haymarket riot. When August Spies sometimes in a confidential mood used to tell the reporters of the coming Social Revolution, and show em a dynamite bomb which he used to keep in his desk in the "Arbeiter Zeitung" office, little attention was paid to his talk. It looks as though the expe-

"The Chicago Heraid," which has been making a careful investigation of the situation for some time past, says that the Anarchists here have already fixed another date for the inauguration of the so-called Social Revolution. A committee of six, supposed to have been formed at the suggestion of Johann Most, of New cial Revolution. A committee of six, supposed to have been formed at the suggestion of Johann Most, of New York, and known as the Invisible Committee, has been working here for a year past endeavoring to incite the Chicago Anarchists to fresh deeds of violence. This committee has been laboring with the Central Labor Union and also with the following societies:

The Workingmen's Defence Association, the organization that raised the money to defend Hronek, Chapek and Chieboun, now on trial for conspiraty to assassinate Judges Gary and Grinuell, Inspector Honfield and others.

The Arbeiter Bund or Working People's Confederation, recently organized at No. 636 Milwaukee ave. LATEST AND MOST VICIOUS OF ALL.
This last is the most violent public organization of

Anarchists in Chicago. It was formed only two weeks present who were supposed to be true to the cause which is very ingentous in its character, not so much on account of its contents as the adroit way in which it seeks to deceive the police. The circular purports to have been printed in 1883, at Pittsburg, but that to have been printed in 1886, at Prisson, the state of th 1883, but those editions were exhausted long ago. A new batch has been printed in close imitation of the old one and is being distributed in the interests of Anarchy. After a long list of reasons in favor of

the old one and is being distributed in the interests of Anarchy. After a long list of reasons in favor of "striking" for liberty, it concludes as follows:

By force our ancestors liberated themselves from political oppression; by force their children will have to liberate themselves from economic bondage. It is, therefore, your right, your diamy and simply: First would achieve is, therefore, labor to arm. What we would achieve is, therefore, class-rule by all means; i. e., by energetic, releases, revolutionary and international action; second, the establishment of a free society based upon co-operative organization and production; first, and the second three exchanges of equivalent products of clucation on a secular, scientific and equal basis for both sexes, fifth, equal rights for all without distinction to sex or race; sixth, regulation of all public affairs by free contracts between the autonomous communes and associations resting on a federalistic basis. Whoever agrees with this idea, let him grasp our outstretched brother-hand. Projectarians of all countries, unite. Fellow-countrymen, all we man fall the story of the New-York tunnel and unity. There exists now no great of all countries unite. Fellow-countrymen, all we man fall the story of the New-York tunnel and its should be succeeded to the story of the New-York tunnel and its should be succeeded to the story of the New-York tunnel and its should be succeeded to the story of the New-York tunnel and its should be succeeded to the story of the story of the mean employed on the New-York tunnel and test the second to the story of the New-York tunnel and its should be succeeded to the story of the story of the mean employed on the New-York agueduct. In fact, he was the work of the production. It had been recently published, and detectives are now making an effort to run down the office where it was printed and the identity of those who had the work done.

The Police soon undeceived themselves as to the character of the production. It had been recently publ

identity of those who had the work done.

The "Arbeiter Bund" has laid its plans to have the meetings of the American Federation of Trades in St. Louis, this month, declare for another eight-hour strike all over the country, and this strike will be seized for an Anarchist uprising, just as the Chicago Anarchists seized upon the eight-hour movement three Anarchists seized upon the eight and are the police pears ago for their Haymarket massacre. The police authorities think too, that the Anarchists will make another destructive demonstration on the one-hundredth anniversary of the fall of the Bastile, which occurs in July next, and they are making preparations both here and in New-York to prevent it.

THE ORGAN OF THE CONSPIRATORS.

Mr. Curin, ex-Editor of the "Arbeiter Zeitung." who is known as the wandering missionary of Anarchism, spoke at the Bund meeting on Thanksgiving, and is busily engaged in the propagation of revolutionary ideas. He is ably backed by Editor Christensen, of that paper, who, although a Communist, it willing to take his chances as to the future, if only he can bring about the destruction of the "capitalistic class." The "Arbeiter Zeitung" is itself a Communist enterprise. It is controlled by a Board of Directors, who serve without pay, and is owned by the Socialist Publishing Society, not on the joint stock plan, but on the Communistic principle. The society takes in all German Socialists in the city, and all who belong to the concern share equally in the benefits to be derived from the paper. Its members are daily instructed through the columns of the paper in the benefits to be derived from a revolution. So that in one way and another the cause of Aharchy is now flourishing. The "Arbeiter Zeitung" November 30, contains a long editorial on the Hronek dynamite trial, written and signed by the late A. Spies's successor in the editorial chair, Christenson. In it, Chieboun, the informer, i called an "undoubted ltar," and he, Bonfield and Marchowsky are otherwise stigmatized. The article

winds up thus: This much may be said now, that it would be a flagrant judicial murder not to acquit the defendant. But, of course, one must be prepared for everything in America, and especially in Chicago. THE INVISIBLE COMMITTEE KNOWN TO THE

POLICE. The movements of the "Reds" are being carefully watched here. Inspector Bonfield had no sooner resumed command of the detective force of the city than he detailed men to work up the doings of the Anarchists, and to keep constant watch on them. He learned at once of their plan of organization, that of decentralization with an invisible Executive Committee, but he struggled in vain for months to obtain a list of the persons composing the committee However, during the present week he obtained the names of all of them; but yesterday, when asked by a reporter, he refused to make them known. He intimated rather strongly that William Holmes was not the least active among the working Anarchists, but would not admit that his name was on the list of persons for whom warrants were about to be issued on the grounds of conspiracy. Indeed, Mr. Bonfield declined to say what the intentions of the police were with regard to the committee. He admitted that Anarchy was again fully organized, that there was impending danger and that the whole the first personners was due to the first personners. movement was due to the "Invisible Committee" of six, but beyond this he would say nothing as to what steps, if any, the police were about to take. He said that the Anarchists were organizing, so far as their public movements were concerned, under cover of the cause of labor in such a way that it would be hard to to suppress their movements. Indeed, he said, it would be a tax upon public sentiment to suppress their meetings as now constituted. He declined to give any particulars as to the character declined to give any particulars as to the character of these organizations. When urged to tell what he knew, or to affirm or deny what information the reporter had gathered, he broke out almost angrity. "I am almost decided to quit the whole business. No one knows what I have risked for years to run down these scoundrels. They get together and talk against the police, and against Bonfield specially. If they could dispatch me I suppose they would lif they could dispatch me I suppose they would feel that they had done their cause a good service. But the point with me is that after I have taken my life in my hands for two years what thanks do I

A POST OFFICE STATION IN FLAMES.

EFFECTIVE WORK BY THE FIRE DEPARTMENT CHECKS A COSTLY BLAZE.

Station A of the Post Office, at Houston and Crosby sts., was threatened by flames last evening. The station is on the ground floor of a six-story building The English Branch of the Socialistic Labor party, that was erected a few years ago. Soon after 6 p. m. which meets at Waverly Hall, No. 122 Randolph st an express agent saw flames at the fourth-story win-The German Branch of the Socialistic Labor party, dows in Crosby-st., and he ran to Police Headquarters The Socialistic Publishing Society, which owns and call the firemen. Battailon Chief McGill, of the Fire controls the "Arbeiter Zeitung" on the communistic Department, called extra engines when he found the upper part of the building had been locked up only a few minutes before the flames were discovered, and no one could tell how the fire started. Chief McGill and his men did heroic and effective work for an hour, and did not permit the fire to extend beyond the fourth story be-

ago. At its last public meeting, held Thanksgiving fore they put it out. Meanwhile the clerks were busy Day, a circular was secretly distributed among those in Station A getting ready to save the mails and the property of the Government if the flames drove them out. It was necessary to cover up some property in the station to prevent damage by water from above, but there was no need to move anything. The upper floors of the building were occupied by

Nicoll & Olde had valuable trimmings on the third and sixth floors, and lost about \$10,000 by smoke and water. There was a damage by smoke of \$2,000 to the stock of clothing belonging to L. M. Younker, Son & Co., on the 2th floor. Water damaged the stock of Guggenheimer & Steinhart on the second floor about \$1,000. If will cost \$2,000 to repair the building. All the property was said to be insured, but the amounts of insurance could not be obtained last night.

witness said he could not say whether or not Brennap was discharged from the New-York aqueduct runnel. On September 12, 1888, the witness warned Major Lydecker of the character of Brennan's work in New-

York.

The latter portion of General Duane's testimony created quite a liffic sentation in the court.

At 11:15, there being no other witnesses present the court adjourned until 10:30 a. n., Monday.

HONORS FOR THE PANEGYEIST OF DULUTH. Washington, Dec. 1 (Special).—It is understood that the President has definitely determined to make J. Proctor Knott the successor of "Eishop" Oberly on the Civil Service Commission, and that the appoint ment will be made on Monday. Mr. Knott sprang into sudden notoriety when he was in Congress some sixteen years ago by his hurocrous speech upon the fulure of Duluth; but he has never been known as a believer in the principles of Civil Service reform. However, his appointment will please the State of Kentucky and his term of service will not be long.

CAN CIDER BE SOLD WITHOUT A LICENSE? Philadelphia, Dec. 1 (Special).—Whether or not the sale of cider is illegal without the procurement of a license under the act of May 13, 1887, is a question on to be decided by the Supreme Court of Pennsylvania. The test case comes from Warren County, were Charles R. Reyburg, of Sheffield, was arrested for elling eider without a license. The jury acquitted rg, but the District-Attorney carried the case to the Supreme Court to-day. In many unlicensed places and soft drink establishments a decuction known as "stone fence" is soid, composed of apple efter with a dash of whisky. A decision is expected next week.

AN HISTORIC LANDMARK DESTROYED. The old Waldron House at Stony Point, a Revo-lutionary landmark, was destroyed by fire a few days

It was built in 1767 by Jacob Waldron, one of the first settlers of the section. His dust, with that of ten children, lies near the ruins of his old home in the family burial plot.

Waldren owned a number of slaves, and one of hem, a burly negro named Lamb, piloted Mad Anhony Wayne up the Heights of Stony Point to victory

The Secretary of the Treasury has fesued a decision in regard to silk ribbons and the tariff which was received from Washington yesterday by Collector Magone. It directs that hereafter silk ribbons shall be classified as "manufactures of silk not otherwise provided for," and shall pay 50 per cent duty.

FATHER MALONE REPLIES.

DEPLOKING THE WHOLE CONTROVERSY.

HE THINKS CATHOLIC LAYMEN SHOULD DE-MAND AN IMPARTIAL TRIAL OF DR. M'GLYNN. At the parsonage of St. Peter and St. Paul's

Church, of Brooklyn, Father Sylvester Malone was again called upon by The Tribune reporter yester-Being asked what he had to say in answer to Dr. McDonnell's statements, he replied:

This whole matter is really a sickly thing. We than This whole mainty is the profession of the manning state of the kind. It is a very unear magnify quarrels of this kind. It is a very unear viable position for a priest of my years to find himself so hereely antagonized by the Archbishop of New-York, for whom I have always entertained the highest than the profession of the profession o pire me and a becoming everynce for all the members of the hierarchy in this land, to which I have given the labor of fifty years. With this short statement I would close, were I assured that peace and charity would flow from my allowing the Archishop to have the last word, and even the victory; but I fear there will be no peace till the whole community is allowed the privilege of seeing all the facts in what he calls the McGlynn affair.

The marriage question—the right to marry in an-

is allowed the privilege of seeing all the facts in what he calls the McGlynn affair.

The marriage question—the right to marry in another diocese without the permission of the ordinary—is one of the mutable things and scarcely worthy a passing word, but who will restore to our Catholic body the peace and charity which were formerly so characteristic of Catholic society in New-York? Who will give confidence—the basis of true brotherhood—to the priests? Who will remove from the lafty this great cause of scandal? Why, I think the bishops of the whole country should be invoked in this matter; that their wise and decisive conclusion might govern the whole family of priests and people. We owe it to our fellow citizens of every denomination to cause the great scandal to cease. So many of them believe Dr. McGlynn to be a pure man, and that aintid all the tem matters has a large for the church of God.

other than a true Catholic and a priest of the Church of God.

If our leading Catholic laymen were to unite and make a respectful demand of the Holy See to have an imparity tribunal with delegated power to thoroughly try Dr. McGlynn's case in or near New-York Car the convenience of witnesses, I believe the first and last successful step would be made to a final settlement and removal of the great scandal. If the lay people do not move, priests, no matter how deeply they may effect for their religion, are bound to keeply they may effect for their religion, are bound to keeply they may effect for their religion, are bound to keeply they may effect for their religion, are bound to keeply they may effect for their religion, are bound to keeply they may effect for their religion. As well we have been successful to the first one he delivered in New-York, because the Archbishop made that request through my own bishop. Rev. Dr. Loughlin, of Brooklyn.

This ought to be quite sufficient evidence of my naw request of my ecclesiatical superiors. I said when "The Heraid" reported the greater portion of my open letter to the Holy Father that I was only responsible for what would appear over my own signature. The "Bussian Czar" and other such stuff had not my Indorsement. I read it for the first time like any other citizen in the popers and disclaimed its authorship. What I have published over my own

In conversation with a New-Yorker, who is well affair, great indignation was manifested against the assertion of Dr. McDonnell that some reasons for the Archbishop's action had not been made useful public. "Rome has offered to open the case." For Boys, said he, "as late as last March, and is still awaiting an intimation from the Archbishop to pro-When Rome has agreed to this, there certainly can be no evidence at the Holy See which would of necessity forbid a second trial,"

The Dress Waisront is made, as a change, in white cashmere or silk, and double-breasted.

The Tronsers are cut perfectly straight and slightly smaller at the bottom, and made from the same material

as the coat.

The second figure represents the Inverness Cape. which has become very popular for Evening Wear.
Its width is comfortable, and the length to cover the dress-cont beneath. The whole cont or the wings only are lined with silk, which comes to the edge of the turn. The materials chiefly used among the fine trades are the rough Thibets and Vicana Cloths. We are making these conts in the above manner for \$25 and \$30. This is the cheapest and most suitable garment a gentleman can have. can have.

No deposit required on orders placed with this house from reliable persons.
